DETAILED ACTION

1. Amendment of 6/02/2006 is acknowledged. Claims 21-28 have been canceled. Claims 1-20 are pending and under consideration.

Restrictions

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-10 are drawn to a formulation for treating cancer.

Group II, claim(s) 11-20 are drawn to a method of treating cancer.

3. The inventions listed as Groups I-II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The special technical feature-linking groups I-II appears to be a formulation for treating cancer wherein the component of blood is PRP platelet rich plasma.

However, Britton et al. US 2003/0152639(prior art of record international search report) teach a formulation for treating cancer wherein the component of blood is PRP platelet rich plasma and a pharmaceutically carrier (see claims specially claims 1 and 4). Therefore, the technical feature linking the inventions of groups I-II does not constitute a special technical feature as defined by the PCT Rule 13.2, as it does not define a contribution over the prior art. As set forth above, each of group I-II has a special technical feature that is not required for the other groups.

The special technical feature of group I is a formulation for treating cancer.

The special technical feature of group II is a method of treating cancer.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one

Art Unit: 1645

or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
